## HOW TO ACT ON THE CASH METAL REPORT?

Traders, hedgers, and procurement managers should use the cash-to-premium trends to fine-tune their inventory strategies, time physical purchases or sales, and adjust hedging positions. A tightening spread (moving into backwardation) suggests stronger near-term demand or supply constraints, signaling opportunities to secure material early or consider bullish positioning. Conversely, a widening contango may indicate loosening market conditions, favoring deferred procurement strategies or defensive hedging adjustments.
