Return Optimization

Investment Solutions

Investment Strategies

Structured investments balancing **liquidity, capital safety, and long-term growth**.

Short-term:

Govt Securities

Park surplus cash in high-safety instruments with stable returns.

T-Bills

Short-tenor cash parking for predictable liquidity planning.

Liquid Funds

Quick access to funds with low volatility and better yield than idle cash.

Equity/Commodity ARB Funds

Market-neutral strategies aimed at steady, tax-efficient returns.

Ideal for **treasury desks, working capital reserves, and surplus cash management**.

Long-term:

Equities

Build long-term capital appreciation aligned to risk profile and horizon.

PMS / AIFs

Strategy-driven portfolios for differentiated, alpha-seeking exposure.

Overseas Funds

Global diversification to reduce single-market concentration risk.

Multi-Asset Funds

Balanced allocation across equity, debt, and alternatives for smoother cycles.

Designed for **family offices, HNIs, endowments, and institutions** seeking long-term outcomes.

Core Offerings
